Dear Folks,

I am uncertain as to whether or not I have spelled your name correctly, but your name and address were both given to me by my good friend Elvira Viñes-Soto. Several years ago she asked me to do a monograph on her uncle, Ricardo Viñes and to help me, she sent me considerable material including photos, programs, facscimile and xeroxes.

I have just presented a paper on Viñes for the American Musicological Society's annual meeting. An article I have written on the pianist will appear in a Festschrift honoring a Professor of our University. And also now, the New York University Press is considering publishing a monograph on him.

I must have misplaced your address when she first gave it to me. Now, having found it, I should very much like to be in touch with you, meet you when I come to Washington, and, if you like, send you a copy of the address I presented.

Should you come to New York before I

get to Washington, my home address is

35 East 84th Street
New York 10028

Phone: 212-535-9229.

My office at the University has been moved to Music Department, 268 Waverly Bldg., Washington Square, New York 10003. (The address on the top of this sheet of stationery is no longer correct.)

I look forward to hearing from you.

Cordially,

Elaine Brody
